This objective inventory of adult personality assesses psychopathological syndromes and provides information relevant for clinical diagnosis, treatment planning, and screening for psychopathology.

**Features and benefits**
- All 22 scales are nonoverlapping, promoting high discriminant validity. Scale development was content-driven.
- **Administration time is up to 40 minutes shorter** than that for similar measures.
- Critical Items Form alerts you to issues that require immediate attention.
- Requires only a 4th-grade reading level.
- A two-part carbonless Answer Sheet provides scores for all 344 items.
- The Item Booklet and Hand-Scorable Answer Sheet are available in Spanish.

**Test structure**
- **Clinical scales provide critical diagnostic features of 11 important clinical constructs.**
- Treatment scales indicate potential complications in treatment. Interpersonal scales provide valuable information regarding the client’s relationships and interactions. Two scales assess pathology.

**Also available!**
- PAI Software Portfolio (PAI-SP), PAI-SP On-Site Scanning Module, and PAI-SP Professional Report Service.
