RCDS™-2
Reynolds Child Depression Scale™—2nd Edition

RCDS™-2SF
Reynolds Child Depression Scale™—2nd Edition: Short Form

Available on PARiConnect™ Assessment at the speed of life®

Screen for symptoms of depression in children

The RCDS-2 and RCDS-2:SF are rating scales that screen for depressive symptomology in children ages 7 to 13 years. Respondents are asked to answer how they have been feeling during the past 2 weeks.

Features and benefits

- No scoring key required—the RCDS-2 form is presented in a convenient carbonless form. All scoring and administration information is presented in the brightly colored test booklet.
- Easy for children to answer—Items are presented in a 4- or 5-point rating-scale format.
- Items are written in the present tense to elicit current symptom status.
- A clinical cutoff score helps determine whether a child should be referred for further evaluation.
- Administration and scoring are available 24/7 via PARiConnect, our online assessment platform.
- The Short Form (RCDS-2:SF) features 11 of the most critical RCDS-2 items and takes just 2-3 minutes to administer.
- The Professional Manual provides extensive background information about the diagnosis and measurement of depression.
- Normative data includes *T* scores and percentile ranges.
- A combination kit with the Reynolds Adolescent Depression Scale, 2nd Ed. (RADS-2) is available.
