

A FASTER WAY TO HELP STUDENTS

500 to 1

National Association of School Psychologists recommended ratio

1,244 to 1

The ratio of student to school psychologist in 2020

14% (7.3 million)

Qualify for and receive special education services

53 million

children in the U.S. are enrolled in Grades K-12

3X

School psychologists around the country have **caseloads** that **are nearly three times bigger** than they should be. This means three times as many tests to complete, reports to write, and meetings to attend—likely delaying eligibility decisions and ultimately impeding services for students.

57% faster

The RIAS-2 is 57% faster than similar products.*

REACH MORE STUDENTS IN LESS TIME WITH THE RIAS-2

“Some shorter IQ tests are longer than the RIAS-2 yet are less thorough and produce less reliable scores. Our purpose was to produce an efficacious measure of intelligence that is appropriate for use under the Individuals With Disabilities Act and other rules.

The RIAS-2 will free time for the practitioner to use other, more varied measures with examinees in order to gather additional and prescriptive information.”

Cecil R. Reynolds, PhD
RIAS-2 coauthor

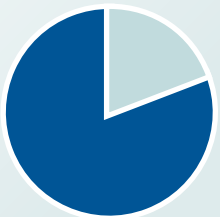

SAVE TIME WITH THE RIAS-2

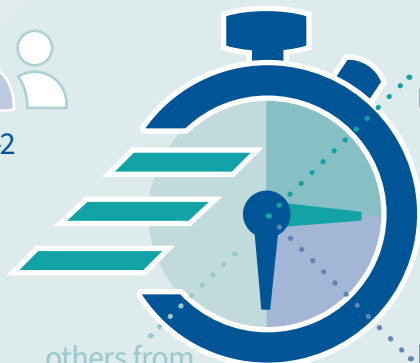

6 out of 7

users say the RIAS-2 helps them reach more students

76% prefer the RIAS-2 because it's faster

others from 30 to 60 minutes

15 minutes

to screen with the RIST-2

30 minutes

administration time

“I have used it more specifically because of the time. I can do more evaluations per day. Others can be 90 minutes to 2 hours. I can do the RIAS-2 in half that time.”

Tiombe Bisa Kendrick-Dunn, SSP, MS, NCSP
DISTRICT SCHOOL PSYCHOLOGY CHAIRPERSON
(PROFESSIONAL GROWTH & DEVELOPMENT)
MIAMI-DADE COUNTY PUBLIC SCHOOLS

“It's a time-saver. I have so many assessments to do. Timewise, it's easier for me to get through it.”

Tina S. Nguyen, PhD
SCHOOL PSYCHOLOGIST
WASHINGTON, D.C., PUBLIC SCHOOLS | CENTRAL IEP TEAM
DIVISION OF SPECIALIZED INSTRUCTION | OFFICE OF TEACHING AND LEARNING

The RIAS-2 helps school psychologists complete more evaluations in less time—allowing them to reach more students and get those students the help they need.
