Interpretive Caveats

Use of this computer-generated report requires a complete understanding of the Brief Visuospatial Memory Test-Revised (BVMT-R) and its interpretation, applications, and limitations as presented in the BVMT-R Professional Manual and the HVLТ-R/BVMT-R Professional Manual Supplement. This report contains raw and standardized scores from the HVLТ-R. Users should refer to the BVMT-R Professional Manual and the HVLТ-R/BVMT-R Professional Manual Supplement for guidelines on the interpretation of this report. Users also should refer to the Professional Manual for information about the psychometric characteristics of the BVMT-R.

This report is only one source of information about the individual being evaluated. No clinical decisions should be based solely on the information contained in this report. The results contained in this report should be integrated with other sources of information when making decisions about this examinee.

This report is confidential and is intended for use by qualified professionals who have sufficient knowledge of psychometric testing and the BVMT-R. Release of this report should be governed by the American Psychological Association's *Ethical Principles of Psychologists and Code of Conduct*, as well as state and federal law.
