

Assessing children? Try this pop quiz!

Clinicians can enjoy added confidence by administering a PVT with every assessment.

When working with children ages 5 to 21 years, use the only PVT specifically designed for and standardized on that age group: the MVP.

MVP
Memory Validity Profile™

Learn more at parinc.com/MVP

Purpose Assesses whether an examinee is providing valid test scores

Age 5–21 years

Format Paper and pencil; download

Time 5–7 minutes to administer;
1–2 minutes to score

Qual C

Interpret test results with confidence

- The first PVT with age-adjusted cutoff scores to minimize false positives in younger children.
- MVP cutoff scores were calibrated based on the state-of-the-art in PVT development, including binomial probability theory, performance in healthy youth and in clinical samples, and an invalid performance sample.
- Standardized on a sample of 1,221 examinees from 30 states using a population-proportionate, stratified random sampling plan based on the 2012 U.S. Census.
- Conormed with the Child and Adolescent Memory Profile (ChAMP) and the Multidimensional Everyday Memory Ratings for Youth (MEMRY), providing comprehensive information about learning and memory.
- The In-Person e-Stimulus Book is a convenient, more hygienic alternative to paper administration that allows you to administer the MVP face-to-face via tablet.

	MVP	ChAMP	MEMRY
What it does	Assesses performance validity in youth	Assesses visual and verbal memory in youth	Assesses everyday memory in youth
When to use it	To detect whether an examinee is providing valid test scores	To conduct an examiner-administered in-depth memory evaluation or memory screening in a controlled testing environment	To obtain multiple perspectives on everyday memory, learning, and executive aspects of memory, including working memory
How it helps clinicians	Improves testing outcome confidence by accurately and rapidly assessing whether a child's scores are a valid estimate of his or her ability	Provides an instrument that is brief, is easy to learn and master, is captivating to distractible or very young examinees, and includes recommendations for school and home	Offers an inexpensive, quick, and easy measure to integrate into busy clinical settings as a screening or as a core component of a comprehensive assessment

Kits

FLYS-11019-KT	MVP Introductory Kit.....	\$345 VALUE	\$284
