

# Tired of using multiple tests that aren't conormed?

The NAB is a comprehensive instrument that offers the combined strengths of both a flexible and fixed neuropsychological battery. Since all 33 individual tests are conormed, you can spend more time on treatment and less on interpretation.

Learn more at [parinc.com/NAB](http://parinc.com/NAB)

**Purpose** Assesses a wide range of cognitive skills and functions

**Age** 18–97 years

**Format** Paper and pencil; scoring software available

**Time** 3 hours and 40 minutes to administer all five modules; 75 minutes to score

**Qual** C

## Give yourself the advantage of the NAB

### A flexible yet comprehensive neuropsychological battery

The NAB was designed to be used in a variety of situations including outpatient examination, research studies, forensic examinations, and many other clinical and research applications.

The NAB is also flexible when it comes to purchasing. You can buy the entire battery, any of the six modules, and certain tests can be purchased individually. The NAB lets you decide exactly what to purchase.

## NAB modules target a breadth of constructs

### Focus on a particular aspect of cognitive skills

The full NAB kit features six modules (five domain-specific plus a screening module), giving you flexibility in administering only what you choose. Plus, each of the modules takes less than an hour to administer.

#### NAB Screening Module

45 minutes | Module kit: \$1,050

This module streamlines the assessment process by providing scores that quickly let you know whether further assessment should be conducted. It also helps generate initial hypotheses regarding differential diagnosis and treatment recommendations.

#### NAB Attention Module

45 minutes | Module kit: \$649

This module provides a marker of an individual's attentional capacity, working memory, psychomotor speed, selective attention, divided attention, and information processing speed.

#### NAB Language Module

35 minutes | Module kit: \$637

This module provides a marker of the severity of aphasia and related disorders of language production, comprehension, and word-finding.

#### NAB Memory Module

45 minutes | Module kit: \$704

This module provides a marker of an individual's verbal explicit learning, visual explicit learning, verbal delayed free recall, visual delayed recognition memory, and verbal explicit learning and recognition of information likely to be encountered in day-to-day living.

#### NAB Spatial Module

25 minutes | Module kit: \$551

This module provides a marker of the examinee's visuospatial skills, attention to visual detail, visuoconstruction, right-left orientation, topographical orientation, and visual scanning.

#### NAB Executive Functions Module

30 minutes | Module kit: \$490

This module provides a marker of planning, engaging with others effectively, problem solving, successfully interacting with the environment to ensure one's needs are met, judgment, conceptualization, cognitive response set, mental flexibility, verbal fluency, and generativity.

# Select NAB tests can be purchased separately

## Choose the specific instrument you need

Retaining all the features that make the NAB an achievement in neuropsychological testing, each test features detailed record forms to guide you through administration; equivalent, parallel forms that reduce the likelihood of practice effects; quick administration and scoring; and an updated Professional Manual that focuses on that particular test.

### NAB® Auditory Comprehension Test™

10–15 minutes | Test kit: \$224

From the **Language Module**, the NAB Auditory Comprehension Test was designed to be a comprehensive assessment of auditory comprehension.

### NAB® Design Construction Test™

15 minutes | Test kit: \$298

From the **Spatial Module**, the NAB Design Construction Test is a brief timed performance test consisting of eight items, each representing an assembly task.

### NAB® Categories Test™

10–15 minutes | Test kit: \$177

From the **Executive Functions Module**, the NAB Categories Test is a classification and categorization task designed to evaluate concept formation, cognitive response set, mental flexibility, and generativity.

### NAB® Digits Forward/ Digits Backward Test™

10–15 minutes | Test kit: \$149

From the **Attention Module**, the NAB Digits Forward/Digits Backward Test offers a simple and brief assessment of attention for orally presented information, as well as working memory.

### NAB® Mazes Test™

20–25 minutes | Test kit: \$250

From the **Executive Functions Module**, the NAB Mazes Test was designed to avoid both floor and ceiling effects found in existing maze tests.

### NAB® Orientation Test™

10 minutes | Test kit: \$101

From the **Attention Module**, the NAB Orientation Test was designed as a measure of orientation to self, time, place, and situation.

### NAB® Naming Test™

10–15 minutes | Test kit: \$312

From the **Language Module**, the NAB Naming Test is designed to assist in the identification of individuals with deficits in visual confrontation naming skills, most commonly found in patients with aphasia.

### NAB® Visual Discrimination Test™

10–15 minutes | Test kit: \$290

From the **Spatial Module**, the NAB Visual Discrimination Test was developed to assist in the determination of deficits in visuo-perceptual and visuospatial skills.

### NAB® Numbers & Letters Test™

15–20 minutes | Test kit: \$271

From the **Attention Module**, the NAB Numbers & Letters Test was designed to identify deficits in attention and inhibition.

### NAB® Writing Test™

5 minutes | Test kit: \$177

From the **Language Module**, the NAB Writing Test represents a measure of narrative writing skills and may assist in the identification of dysgraphia/agraphia.
