RAIT-NV

Purpose Assesses nonverbal intelligence

Age 10–75 years

Format Paper and pencil

Time 20 minutes

Qual B

Rapid, reliable, and valid power tests of intelligence

- Used by American Mensa as one of its admission tests.
- Available in a full or abbreviated battery.
- Obtain an IQ assessment with or without an appraisal of quantitative reasoning skills.
- Administer and score 24/7 using our online assessment platform, PARiConnect, or with paper and pencil.
- Requires minimal reading and almost no motor coordination and visual–motor skill.
- Can be administered by a qualified proctor, teacher, or administrator, making it a viable option for use in schools, justice systems, clinical settings, and human resources and related industrial settings.
- Features modern, full-color illustrations.
- The RAIT-NV is ideal for administration with individuals with limited English proficiency or no language skills.
- Use in human resources and related industrial settings, schools, juvenile and adult justice systems, and clinical practices, especially where nonverbal reasoning skills are at a premium.
- Administer individually or in a group format.
- Alternate administration instructions available for special populations.
- Learn how to administer the RAIT remotely with step-by-step instructions provided in our white paper. Visit parinc.com/RAIT and click the Resources tab to view.
