Use of this score report requires a complete understanding of the *Children's Aggression Scale* (CAS) scales and its interpretation, applications, and limitations as presented in the CAS Professional Manual. This report contains raw and standardized scores from the CAS-Teacher Rating Form. Users should refer to the CAS Professional Manual for procedures and guidelines for the interpretation of this report. Users also should refer to the Professional Manual for information about the psychometric characteristics of the CAS.

This report should be used as only one source of information about the individual being evaluated. In this respect, no decisions should be based solely on the information contained in this report. The raw and standardized scores contained in this report should be integrated with other sources of information when making decisions about this individual.

This report is confidential and is intended for use by qualified professionals who have sufficient knowledge of psychometric testing and of the CAS. *This report should not be released to the respondent or to any individuals who are not qualified to interpret the results.*
