## RIAS-2 NU Score Report

by Cecil R. Reynolds, PhD, and Randy W. Kamphaus, PhD

Client name: Sample Client

Client ID: PAR Sample

Sex: Female

Age: 14:3

Ethnicity: Native American/Alaskan Native

Grade/Highest level of education: 7<sup>th</sup> Grade

Test date: 02/17/2026

Date of birth: 10/31/2011

Examiner: Dr Jones

Reason for referral: Gifted evaluation

Referral source: Guidance counselor

This report is intended for use by qualified professionals only and is not to be shared with the examinee or any other unqualified persons.

## Optional Scores

|                            |           |                         |
|----------------------------|-----------|-------------------------|
| SNT Time to Completion     | 381       | 23                      |
|                            | Raw score | Age-adjusted<br>T score |
| SNT Total Number of Errors | 2         | 50%                     |
|                            | Raw score | Percentage<br>of sample |
| SPS Total Number of Errors | 5         | ≥95%                    |
|                            | Raw score | Percentage<br>of sample |

*Note.* Optional scores are based on the original RIAS-2 standardization sample. “---” indicates a score that cannot be calculated due to missing subtest or item response data.

## Discrepancy Score Summary

| Discrepancy score | Score difference | Statistically significant? | Prevalence in standardization sample |
|-------------------|------------------|----------------------------|--------------------------------------|
| VIX > NIX         | 2                | no                         | >20%                                 |
| CIX < CMX         | 34               | yes (.01)                  | ≤5%                                  |
| VRM > NVM         | 28               | yes (.01)                  | ≤5%                                  |
| CIX > SPI         | 12               | yes (.01)                  | >20%                                 |
| SNT > SPS         | 82               | yes (.01)                  | ≤1%                                  |
| TVB > TNB         | 54               | yes (.01)                  | ≤1%                                  |

VIX = Verbal Intelligence Index, NIX = Nonverbal Intelligence Index, CIX = Composite Intelligence Index, CMX = Composite Memory Index, VRM = Verbal Memory, NVM = Nonverbal Memory, SPI = Speeded Processing Index, SNT = Speeded Naming Task, SPS = Speeded Picture Search, TVB = Total Verbal Battery Index, and TNB = Total Nonverbal Battery Index.

*Note.* Discrepancy scores are based on the original RIAS-2 standardization sample. “---” indicates a score that cannot be calculated due to missing subtest or item response data.

## Profile Variability Index (PVI) Score Summary

| Index/Battery | PVI raw score | Prevalence in standardization sample |
|---------------|---------------|--------------------------------------|
| CIX           | 7             | >20%                                 |
| TTB           | 24            | ≤1%                                  |

*Note.* PVI scores are based on the RIAS-2 NU standardization sample. “---” indicates a score that cannot be calculated due to missing subtest or item response data.
